CANCER CARE FOUNDATION

SAVE MORE LIVES FROM CANCER

With your help we can be there for people living with Cancer

Cancer Care Foundation is a voluntary health organization dedicated to eliminating cancer as a major health problem. The organisation is registered under societies registration act 1860 and based at Kozhikode. It works for the welfare, early identification, treatment and rehabilitation of economically backward cancer patients in all over India. Cancer Care Foundation registered as an Indian organisation and governed by independent Board.

We are deeply concerned about people in India who are affected by cancer and those who may be at risk of getting cancer. CCF's mandate covers the full spectrum of cancer care from prevention, screening, diagnosis and treatment, to research and education, to supportive and palliative care. The members of CCF are highly committed personalities from different walks of life with equal spirit of humanity and compassion.

Cancer is a large group of diseases that can start in almost any organ or tissue of the body when abnormal cells grow uncontrollably, go beyond their usual boundaries to invade adjoining parts of the body and/or spread to other organs. More than 70% of all cancer deaths occur in low- and middle-income countries where resources are available for prevention, diagnosis and treatment of cancer are limited or non-existent.

India had an estimated 1.16 million new cancer cases in according to a report by the World Health Organization (WHO), which said that one in 10 Indians will develop cancer during their lifetime and one in 15 will die of the disease.

OUR VISION

Create a world without cancer

OUR MISSION

Eradicate/ Reduce the cancer burdens of people through early identification,

OUR VALUES

- ▀ Quality – We are focusing excellent services to cancer patients, their families, donors and general public
- ▀ Caring - we are committed to serving with empathy and compassion.
- ▀ Integrity - we are committed to act in an ethical, honest manner.
- ▀ Respect - we believe that all people should be treated with consideration and dignity. We cherish diversity.
- ▀ Responsiveness - we strive to be accessible, flexible, transparent, and to demonstrate a sense of urgency in our resolve and decision-making.
- ▀ Accountability - we are committed to measuring, achieving and reporting results, and to using donor cash wisely.
- ▀ Teamwork - we are committed to effective partnerships between volunteers and staff, and we seek opportunities to form alliances with others

What We Do

NAVAJEEVAN PROJECT

Cancer can impose heavy economic burdens on people living with the disease. The patients who are not able to afford the cost of medicine will be helped to find out sponsors so that they continue the course without break. The contribution from the public is given to meet the expenses partially for medical treatment like surgeries, chemotherapy, radiation and rehabilitation of cancer patients.

CHILDHOOD CANCER

A cancer diagnosis is upsetting at any age, but especially so when the patient is a child. 1.6 to 4.8% of all cancer in India is seen in children below 15 years of age. It's important to know that this expertise exists and that there are effective treatments for many childhood cancers.

EMOTIONAL SUPPORT PROGRAMMES

Mentoring
Check in phone calls
Hospital visits
Healing art
Counseling

PALLIATIVE SERVICES

Palliative care is an approach to care that addresses the person as a whole, not just their disease. The goal is to prevent or treat as early as possible, the symptoms and side effects of the disease and its treatment, in addition to any related psychological, social and spiritual problems.

CANCER AWARENESS PROGRAMME

The limited cancer literacy of the general public impairs effective awareness and prevention behaviors. We are plan to conduct awareness campaigns design to raise awareness of cancer symptoms, cancer prevention and to support people to make lifestyle changes that can help reduce chances of getting cancer.
